<https://www.linkedin.com/in/dharani-kesavan/> | 8015512051

OBJECTIVE

Detail-oriented and results-driven Information Technology student specializing in full-stack web development using React.js, Node.js, and MongoDB. Passionate about building scalable and user-centric applications, with a strong foundation in developing academic and personal projects. Seeking an entry-level developer role to contribute to innovative solutions, enhance user experience, and grow as a software engineer.

TECHNICAL SKILLS

Frontend Development : React JS,HTML, CSS

Backend Development : Node JS, Express JS

Version Control & Tools : Git, Github

Programming Language : Javascript

EDUCATION

SSM Institute of Engineering and Technology, Dindigul **2027**

B.Tech Information Technology | 8.5 CGPA

St. Joseph's Girls Higher Secondary School, Dindigul **2021-2023**

HSC | 88 Percentage

EXPERIENCE

Full Stack Developer - Blue Collar

- Collaborated in a team of three to design and develop a full-stack job portal connecting blue-collar workers with local employers.
- Built responsive and user-friendly UI components using React for job listings and user profiles.
- Developed backend services using Node.js and Express, implementing user authentication, job posting, and application tracking features.
- Designed and managed MongoDB database with scalable schema for efficient storage of user and job data.
- Contributed to end-to-end development, from system design to deployment, ensuring smooth user experience

INTERNSHIP

Hitakey Tech Solution Pvt. Ltd., Trichy, Tamil Nadu

Jul 2025 - Aug 2025

Completed a full-stack web development internship, working on real-world projects. Built responsive user interfaces using HTML, CSS, JavaScript, and React.js, and assisted in backend development with Node.js and Express. Gained experience in debugging, improving UI/UX, and the software development lifecycle (SDLC).

Developed an AI-powered interviewer web application using Django, enabling HR to create interview workflows and candidates to attend real-time AI-driven interviews. Integrated Google Gemini APIs for interactive sessions and automated evaluation. Implemented user authentication, data storage, and result management with a clean UI/UX.
